No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            BG

07-FEB-2006, entry version 57.
Insulin-like growth factor II pr
polypeptide) (IGF-II).
Name=19f2; Synonyms=Igf-2;
Holthuizen P.E., Cleutjens C.B., Veenstra G.J., van der Lee F.M., Koonen-Reemst A.M., Sussenbach J.S.; "Differential expression of the human, mouse and rat IGF-II genes."; Regul. Pept. 48:77-89(1993).

1. FUNCTION: The insulin-like growth factors possess growth-promoting activity. In vitro, they are potent mitogens for cultured cells.
                                                                                                               STRAIN=BALB/c; TIS MEDLINE=94089965;
                                                                                                                                                                                   "Coordinate expression of insulin-like growth fa
receptor during muscle differentiation.";

Biophys. Acta 997:27-35(1989).

FUNCTION: The insulin-like growth factors possess growth-promoting activity. In vitro, they are potent mitogens for cultured cells. IGF-II is influenced by placental lactogen and may play a role in fetal development.
                                                                                                                                                                                                                                                                                                                                                         93
